

STATE BUDGET REDUCTIONS THREATEN CRITICAL COURT SERVICES

Ongoing state budget reductions to the Riverside County Superior Court, coupled with not enough judges to hear the high volume of cases, could have the potential to reduce critical court services. These services include resolving family disputes, removing children and the elderly from abusive environments, defending a traffic citation, and providing victims of domestic violence with protection. Every resident of Riverside County is entitled to these services.

You can help by urging the Governor and Legislature to restore vital funding to the court and provide more judges to hear cases. Sample letters and contact information are provided below to assist you. In addition, a Fact Sheet and Press Release are also provided for your reference. If you have any questions, please contact the Riverside County Superior Court Executive Office at (951) 777-3163.
