Users Guide

The e-Fax program allows court customers to deliver documents to the court via the court web-site. The documents must be in Portable Document Format (PDF). The program will request information required to complete the 'Facsimile Transmission Cover Sheet' and allow court documents to be uploaded and transmitted to the court. The documents will be received at the court and processed as though they were delivered by fax. The same rules and procedures that apply to the Fax Filing Process apply to the e-Fax process.
