RIVERSIDE SUPERIOR COURT IMPLEMENTS NEW CASE MANAGEMENT SYSTEM FOR JUVENILE

Release Date: May 31, 2022

Contact: Marita C. Ford, Public Information Officer

RIVERSIDE COUNTY:

Beginning Tuesday, July 5, 2022, the Riverside Superior Court will deploy a new case management system to manage juvenile cases; this includes juvenile justice (delinquency), dependency and appeals. Utilizing funds specifically set aside for automation, and following a comprehensive procurement process, Riverside selected Journal Technologies' eCourt[®] case management system to replace an outdated system that was nearing the end of its useful life. The Riverside Superior Court launched eCourt for probate cases in December 2017, family law cases in August 2018, civil cases in 2020, eFiling for civil in 2021, and now juvenile cases are being added to the eCourt case management system.

The design and implementation of eCourt for juvenile is a significant enterprise, linking business processes with system architecture, involving court staff from many disciplines such as interpreters, records, fiscal, enhanced collections, legal, court technology, appeals and juvenile operations. This innovative system design is specific to the case type of juvenile, thus allowing the more efficient data retrieval and streamlined procedures to ensure the highest quality of justice and public service.

Information on existing juvenile cases will be converted from the current legacy system to maintain the continuity of court records.

The implementation of new case management systems for our remaining litigation areas of criminal and traffic will continue over the next 18 months.

For more information, please contact Public Information Officer, Marita Ford at 951-777-3147.
